

 Finishing the hard to finish

Heat Treat Salts

For Your Heat Treatment and Rubber Curing Needs

Heat transfer salts or heat treat salts are used in alloy heat treatments, such as annealing and martempering of steel. We manufacture our own line of heat treat salts on-site at our Connecticut and South Carolina plants. Hubbard-Hall's heat treating salts are widely used for hardening, annealing, martempering, tempering, and isothermal quenching.

Why Hubbard-Hall
